Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Executive Order N-33-20**

On 03/19/20, the California State Public Health Officer and Director of the California Department of Public Health ordered all individuals living in the State of California to stay home or at their place of residence, except as needed to maintain Continuity of Operations of the Federal critical infrastructure sectors.

- **Global Health Advisory**

On 03/19/20, the U.S. Department of State issued a Global Health Advisory at Level 4 (Do Not Travel) due to the global impact of COVID-19.

- **FEMA-4482-DR-CA**

On 03/22/20, President Trump approved Major Declarations FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 08/17/20 at 1000 hours:

- 21,921,719 (+207,873) total confirmed cases in 213 countries
- 774,908 (+4,116) total deaths

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 08/17/20 at 1100 hours:

- 5,382,125 (+41,893) total confirmed cases
- 169,350 (+654) total deaths

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 08/17/20 at 1100 hours:

- 628,031 (+6,469) total confirmed cases

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

SITUATION SUMMARY

August 2020 Heat Event

Phase II actions of the California Heat Contingency Plan are taken as a result of the National Weather Service's (NWS) issuance of Excessive Heat Warnings with poor overnight recovery for an Operational Area over a period typically three or more days. Phase II of the Heat Contingency Plan has been activated from Friday, 08/14/20 through Wednesday, 08/19/20, due to forecasts of dangerous and excessive heat for portions of Inland, Coastal, and Southern Regions. [The extended heat wave has heightened energy demand, causing the California Independent System Operator to issue grid warnings and temporarily escalate into Stage 2 and 3 System Emergencies, prompting rolling blackouts across the state to secure California's energy supply.](#)

Per NWS:

- High Risk and Very High Risk heat impacts across portions of Inland, [Coastal](#), and Southern Regions expected [through at least Thursday, 08/20.](#)
- Heat events are not unusual for this time of year however the extended heat wave with poor overnight recovery can be dangerous.
- Several heat-related warnings are in effect through [Thursday](#) in affected areas.

Activations

- All Cal OES Regional Emergency Operation Centers are activated at Level 3 ([lowest level](#))
 - Operational Hours: A Shift: 0800 hours – 2000 hours, B Shift: Duty Officer

Additional Details:

- Please see the attached Cal OES Situation Cell incident report for additional information related to [the energy emergency and heat](#) event.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Isolated to scattered showers and thunderstorms are expected Monday and Tuesday afternoon for portions of Plumas, Tehama, Butte, Shasta and Lassen Counties.
- Red Flag Warning for the entire San Francisco Bay region including the Santa Cruz Mountains, the South Bay, East Bay Hills and North Bay through late this morning.
- A long duration extreme heat event will create dangerous conditions through at least Wednesday for interior Northern California.
- A few thunderstorms are possible along the Southern Sierra Nevada crest and across the Kern County mountains and deserts today.

SOUTHERN CALIFORNIA

- Elevated to brief critical fire weather conditions are expected through Wednesday due to the hot, dry conditions and the potential for plume development above any existing or new wildfires.
- There is also a potential for lightning each day which could start new fires and could pose a risk to people at area beaches.
- A long duration heat wave will persist through at least Wednesday or Thursday with an excessive heat warning in effect for most inland areas away from the ocean.

WEATHER KEY POINTS

08/17/20 - 08/23/20

Monday-Sunday

- A prolonged heat wave is expected across Inland and Southern regions and southern portions of Coastal region over the next week or two
 - **High to very high heat impacts likely through the week for the interior valleys and inland southern CA. This heat wave may last through the end of August.**
 - Poor overnight recovery will continue, especially through mid week.
 - A brief cool down with moderate heat is expected for Wednesday and Thursday across northern and central CA before heat impacts increase again Friday and into the weekend.
- Elevated to Critical fire weather concerns continue as mainly dry conditions prevail and locally gusty winds occur in and around the terrain, especially across northern and central CA Monday.
- Scattered thunderstorms are possible most days this week, especially over the higher terrain, with strong, gusty winds and frequent lightning
 - Isolated severe thunderstorms are possible Monday afternoon and evening across far northern CA, producing strong winds, hail, and frequent lightning.
 - New fire starts possible with dry lightning and gusty, erratic winds near storms
 - Heavy rain is possible with some storms. There is a potential for flash flooding and debris flow over recent burn scars.
